You have an Access denied in your error log because you have not yet activated the report viewer. A quote from the Crystal Reports error log tutorial: Cannot open the file, "C:\Program Files\Crystal Decisions\Report Viewer 11.0\imports\isql10_2010.rpt" for viewing. I don't recommend using a shortcut instead of the Crystal Reports Developer Studio. It makes it much harder to understand the error and you also can miss the step of adding the report viewer. The result is you will get the same error again the next time you try to view the report. The tutorial doesn't work this way. Pore and surface morphological and structural characterization of alginate/halloysite nanocomposite hydrogels. Alginate-halloysite (Alg-Hal) nanocomposite hydrogels were prepared using a simple batch gelation method for potential use as an absorbent for water pollution from oil spills. The porous and surface morphologies of Alg-Hal hydrogels were characterized using scanning electron microscopy, fourier transform infrared spectroscopy and thermogravimetric analysis. The specific surface area and pore volume of the Alg-Hal hydrogels were higher than those of the initial Al
