This program can help you to manage the stuff on your FLICKR. Download shutter your music from your iPhone or iPad to your hard drive. iPod photo albums, Gmail emails, even calendar events can all be incorporated. Dropbox seems to be the most popular method to store and sync data. It provides a very convenient way to backup and sync from and between various devices. That is why we will take a look at it in more detail. Dropbox Dropbox was born from Stanford University graduate students Evan Williams, Biz Stone and Jamie Van Meter. It is now at the heart of many Web 2.0 services, including Twitter and Facebook. Here's why you should use it for your photos: 1. Use Dropbox to backup your iTunes Dropbox can back up music to your hard drive in a number of different ways: With the option to select an entire music catalog or specific songs you would like to backup With the aid of iTunes, you can sync a particular album with Dropbox. iTunes is able to determine that a song, or an entire album, is in your iTunes library and automatically upload it to Dropbox. If you want to learn more about iTunes sync and iTunes music, please check out this tutorial. In addition to iTunes, you can also manually backup music to Dropbox using a second program. You can use a variety of tools to sync your music as well. Here are some of them: 2. Use Dropbox to back up calendar events With calendar events, you are probably most familiar with the Apple iCal. You can use iCal to back up and sync calendar events from your computer. However, iCal is a very heavy app to download and run. If you want to back up or sync your calendar information, you should try to find an app that will do the job. One such app is called Backup4all. Backup4all allows you to sync your iCal to your Dropbox. Therefore, you can backup all your calendar events to your hard drive. You can also use another program to backup your calendar. A variety of programs available from Synchronization Manager. The program allows you to back up all your data from the program or only certain types of data. 3. Use Dropbox to back up calendar events Another program that will help you to back up and synchronize your calendar is called HandySync. HandySync allows you to backup and sync iCal calendar events to your

Hello everyone, Apologies for such a late answer. I wasn't available for these first few weeks. Yes, the license change to MIT allows commercial use. As its not a commercial application I'm not yet charging for this though. We're most certainly thinking about doing it. If anyone has any ideas how to monetize these types of apps, please hit us up. Flickr Streamr 0.51.6 has been released. This release contains a huge number of changes. Most important of them: 1) Added additional sources for Flickr/Picasa uploading (collection links and public pools), and supported more sources. 2) Added an option for enabling your own FTP account for uploading Flickr albums to your Drive. 3) Added an option to fill in your name and message automatically when uploading to Flickr. 4) Streamr now has a logo. 5) Streamr now shows thumbnails on album creation, and updates your album title and tags from Flickr. 6) Flickr and Picasa albums will now have album cover thumbnails by default, and update album cover when uploading new items. 7) "Crop" and "Rotate" options are now available for photos/videos. 8) Various UI polish. 9) Various bug fixes. Download: Quiet News * Development is on a roll and I've got a lot of changes to announce to you. Some will be daily, but there are likely to be a few updates a week. * I don't intend to go around the web announcing everything on an "announcements" list, but the below should be
