dead rising 2 off the record bbq chef skills pack

Doesn't even show up. What a joke.. I know I'm probably going to get roasted for putting this out there, but these DLCs are only a couple of dollars, these games are still being updated especially now that they've been swapped over to steam saves, so the DLC will eventually work again and I see a major problem with pretty much every steam user these days turning into a total scrublord every time that something stops working for 5 seconds why is this? If you don't have a problem with waiting for getting mileage out of this DLC, then by all means buy it now because it is incredibly useful in the main game when it works, if you have to have your instant gratification wait and come back whenever it's working again, thank you have a nice day.. Doesn't show up in locker. literally a scam.. THIS\u2665\u2665\u2665\u2665\u2665BROKEN. Don't purchase any of the dlc, you will not find it in the game. Capcom just stole my money.. :( where is my DLC?
